

Crib Information Sheet

Beginning June 28, 2011, all cribs manufactured and sold (including resale and tag sales) must comply with new and improved federal safety standards. The new rules, which apply to full-size and non full-size cribs, prohibits the manufacture or sale of traditional drop-sale rail cribs, strengthen crib slats and mattress supports, improve the quality of hardware and require more rigorous testing. The details of the rule are available on CPSC's web site. Although some cribs manufactured prior to this date may meet the new standards, we are only selling cribs manufactured on or after June 28th, 2011
